EDUCATION

- **Atharva College Of Engineering** Malad, Mumbai
Bachelor of Engineering - Computer Science; GPA: 8.34 (Agg) Jan 2021 - June 2024
- **New English School & Jr. College** Vasai, Mumbai
Higher Secondary Certificate - Computer Science; Percentage : 66.77 Jul 2018 - Feb 2020
- **ST. Peter's English High School** Vasai, Mumbai
Secondary School Certificate; Percentage : 79.60 June 2010 - March 2018

TECHNICAL SKILLS

- **Languages:** Java, Python, MYSQL, HTML5/CSS3/**JavaScript**, **TypeScript**, TailwindCSS
- **Frameworks:** Flask, NextJS, Ionic
- **Tools:** Git and GitHub, Docker, Chrome Dev Tools
- **Libraries:** **React.js**, Pandas, NumPy, Matplotlib
- **Platforms:** Linux, Windows
- **Software:** Figma, Blender, VS Code

EXPERIENCE

- **Contributing To Open-Source** Remote
Engaged in active open-source contributions. August 2022 - present

PROJECTS

- **AI Fusion** — NextJS, Tailwind, Typescript, Git, GitHub, Figma — (present)
Developed frontend with **Next.js**, incorporated **Tailwind CSS** for styling. To foster collaboration, the project was made **open-source**. Additionally, a **GitHub Actions** was implemented to conduct tests on pull requests from contributors, and the application was deployed using Vercel for seamless accessibility.
- **CodeTrio** — JavaScript, HTML, CSS, Git — (Dec 2023)
In a burst of creativity, I designed and coded a Calculator that captures the essence of an iPhone 14. Additionally, I crafted a vibrant Tribute Page celebrating Vikram Sarabhai's exceptional contributions to ISRO and brought to life a personalized TODO interface, inspired by Figma design, to keep tasks in check with flair!
- **Labour Services** : — React.js, Ionic, CSS, Git, GitHub — (Aug 19, 2022)
Built the Labour Services **Hybrid app** by leveraging the power of **React.js** with the **Ionic framework** to craft new user-facing features that enhance the customer-laborer interaction. Implemented **reusable components** to ensure a scalable and efficient system that fosters seamless communication between both parties. Additionally, translated designs and wireframes into high-quality code.
- **Clone of Ali Abdaal's Website**: — Flask, JavaScript, HTML, CSS, Git — (March 2022)
Developed with Flask and SQLAlchemy for database management. Utilized MIMEMultipart and MIMEText to send confirmation emails for the newsletter feature, enabling users to subscribe by clicking the confirmation link.

PARTICIPATION

- Code with Cisco - June, 2023
- Code to Give India by Morgan Stanley - June, 2023

VOLUNTEER EXPERIENCE

Student Coordinator at "PROJECTATHON-National Project Competition". (April 2023) Malad, Mumbai

ACTIVITIES / HOBBIES

Love writing and reading books.
